

## KEESTRACK Press Release

Date: 24 March 2022

### **Keestrack welcomes CTE as new dealer for Romania Professional and driven representation**

CTE Solution Utilaje signed the contract with Keestrack to become dealer in Romania.

During their visit at one of Keestrack's production facilities in Šternberk, Czech Republic both parties, Keestrack and CTE, were impressed by the professionalism and drive of each company to make a difference in the construction and recycling industry.

Keestrack CEO Frederik Hoogendoorn and CTE's General Director Andrei Dumitra came to this agreement and shook hands in the recently opened showroom in Czech. *"In summer 2022 we expect the first Keestrack machines to be delivered to Romanian customers by CTE"*, says Florin Ioia, Area Sales manager of Keestrack.

CTE Solution aims to provide the best solutions and equipment for construction, remediation of soil, and recycling. The range of turnkey equipment and solutions is endless but includes construction equipment, sorting stations, crushers, trucks for waste collection and transport, street cleaning and snow removal equipment, municipal, industrial, construction and demolition waste treatment equipment, complete waste treatment solutions.

*"Keestrack fits well in the product range of CTE"*, says General Director Andrei Dumitra of CTE, *"because they produce and design the most innovative and energy efficient product range of mobile crushing and screening equipment"*.

*"Keestrack has strengthened their representation on the Romanian market with CTE joining the dealer network"* according to Frederik Hoogendoorn CEO of Keestrack.

**Boilerplate:**

Keestrack designs, manufactures and distributes mobile crushing and screening equipment and stackers since it has been founded in 1996 by Kees Hoogendoorn and his wife Annet Schoenmaker. Today the second generation Hoogendoorn run the family business with more than 1000 employees worldwide and manufacturing facilities in Czech Republic, Italy, China and India. Over 115 distributors represent Keestrack in 100 countries. Keestrack' s goal is to build the most energy efficient and productive equipment on the market by constantly innovating their products. This way equipment users can produce at the lowest cost per ton.
